

Safeguarding Children and Child Protection Policy

At Little Explorers we work with children, parents, external agencies and the community to ensure the welfare and safety of children and to give them the very best start in life. Children have the right to be treated with respect, be helped to thrive and to be safe from any abuse in whatever form.

We support the children within our care, protect them from maltreatment and have robust procedures in place to prevent the impairment of children's health and development. In our setting we strive to protect children from the risk of radicalisation and we promote acceptance and tolerance of other beliefs and cultures. Safeguarding children is everybody's responsibility. All staff, students, supply staff and visitors are made aware of and asked to adhere to, the policy.

Policy intention

The policy makes it clear that all staff, students and volunteers have a responsibility to safeguard children and young people and to protect them from harm. It aims to raise awareness of how to safeguard and promote the welfare of children and provides procedures should a child protection issue arise.

This policy applies to all children up to the age of 18 years whether living with their families, in state care, or living independently (Working together to safeguard children, 2026).

This policy has been reviewed against the Statutory Framework for the Early Years Foundation Stage (EYFS), published July 2026 and mandatory from 1 September 2026.

Safeguarding is a much wider subject than the elements covered within this single policy, therefore this document should be used in conjunction with our setting's other policies and procedures Including:

Attendance and absence monitoring policy	Safer eating policy
Acceptable internet use policy	Inclusion and equality policy
CCTV policy	Late collection and non-collection of children policy
Data protection and confidentiality policy	Lock down policy
Arrivals and departures policy	Lone working policy
Allergies and allergic reactions policy	Looked after children policy
Missing child from nursery policy	Missing child from outing policy
Mobile phone and electronic device use policy	Nappy changing/ toileting policy
Online safety policy	Promoting positive behaviour policy
Recruitment, selection and suitability of staff policy	Respectful intimate care policy
Social networking policy	Special educational needs and disabilities (SEND/EAL) policy

Staff code of conduct	Supervision of children policy
Supervision of visitors policy	Volunteers policy
Whistleblowing policy	Young workers policy
Food provisions guidelines	Lunchbox guidance
Manual handling policy	Fire safety and emergency evacuation
Risk assessments	Children's wellbeing in the nursery
Sleeping Children / Safer Sleeping	

Staff Training and Support in Safeguarding Practice

At Little Explorers, we are committed to ensuring that all staff members are confident, knowledgeable, and capable of fulfilling their safeguarding responsibilities. Safeguarding training is a core part of our induction and ongoing professional development.

Training Delivery:

- All staff receive safeguarding training as part of their induction before working directly with children.
- Staff complete a recognised Level 2 Safeguarding Children course as a minimum, with key staff including the Designated Safeguarding Leads (DSLs) completing advanced safeguarding training (Level 3).
- Safeguarding training is refreshed regularly in line with statutory guidance and our setting's policy (at least annually in house), with updates provided more frequently if needed.
- Ongoing in-house training, including scenario-based discussions, policy reviews, and reflective practice sessions, are delivered during staff meetings and inset days.
- Changes to legislation, procedures, or local safeguarding updates are communicated promptly via staff memos and team briefings.

Putting Training into Practice:

- Staff are supported by our DSLs and senior leadership team to apply safeguarding knowledge confidently in daily practice.
- Supervisions and one-to-one meetings include opportunities for staff to discuss safeguarding concerns, reflect on practice, and seek guidance.
- A safeguarding culture is promoted throughout the nursery, with regular reminders, visual prompts (e.g. safeguarding boards), and access to key documents and reporting procedures.
- Staff are encouraged to ask questions, report concerns immediately, and use our internal systems (e.g. incident logs, reporting forms) confidently.

- New or less experienced staff are mentored by senior team members to ensure correct application of safeguarding procedures.

We recognise that safeguarding is a shared responsibility, and we aim to create a supportive environment where staff feel confident in protecting children from harm.

Any concern, indication, allegation or disclosure of child sexual abuse must be reported immediately to the DSL and dealt with under the nursery's safeguarding referral procedure.

Child-sexual-abuse reporting duty

Where the statutory mandatory reporting duty under the Crime and Policing Act 2026 applies and has commenced, the required report will be made to the police or local authority as soon as reasonably practicable. Staff must not assume that informing the DSL removes their personal responsibility unless they have confirmed that an appropriate report has been or will imminently be made.

It is the responsibility of every staff member, student and volunteer to report any breaches of this policy to the Designated Safeguarding Lead (DSL).

Safeguarding and promoting the welfare of children, in relation to this policy, is defined as:

- Protecting children from maltreatment
- Preventing the impairment of children's health or development
- Ensuring that children are growing up in circumstances consistent with the provision of safe and effective care
- Taking action to enable all children to have the best outcomes.

(Working together to safeguard children, 2026)

Child protection is an integral part of safeguarding children and promoting their overall welfare. In this policy, child protection shall mean:

- The activity that is undertaken to protect specific children who are suffering, or are at risk of suffering, significant harm.

To safeguard children and promote their welfare we will:

- Develop a safe culture where staff are confident to raise concerns about professional conduct
- Ensure all staff are able to identify the signs and indicators of abuse, including the softer signs of abuse, and know what action to take
- Share information with other agencies as appropriate.

Staff recognise that children may experience multiple and overlapping forms of harm. Concerns must be considered holistically rather than as isolated incidents.

Safeguarding consideration may begin before birth where there are concerns regarding an unborn child. The nursery will work with relevant agencies and follow local pre-birth safeguarding procedures where appropriate.

We promote:

- Always listening to children
- Positive images of children
- Children developing independence and autonomy as appropriate for their age and stage of development
- Safe and secure environments for children
- Tolerance and acceptance of different beliefs, cultures and communities
- British values
- Providing intervention and help for children and families in need.

We have a duty to act quickly and responsibly in any instance that may come to our attention. If in any doubt about what constitutes a safeguarding concern, refer to the Designated Safeguarding Lead (DSL). If there is a concern, never do nothing (Laming, 2009), always do something, including sharing information with any relevant agencies. Safeguarding is everybody's responsibility.

The nursery will always ensure:

- Keep the child at the centre of all we do, providing sensitive interactions that develop and build children's well-being, confidence and resilience. We will support children to develop an awareness of how to keep themselves safe, healthy and develop positive relationships
- Be aware of the increased vulnerability of children with Special Educational Needs and Disabilities (SEND), isolated families and vulnerabilities in families, including the impact of toxic trio on children and Adverse Childhood Experiences (ACEs)
- Ensure that all staff feel confident and supported to act in the best interest of the child, maintaining professional curiosity around welfare of children, sharing information, and seeking help that a child may need at the earliest opportunity
- Ensure that all staff are familiar and updated regularly with child protection training and procedures and kept informed of changes to local and/or national procedures, including thorough annual safeguarding updates
- Make any child protection referrals in a timely way, sharing relevant information as necessary in line with procedures set out by Somerset Local Authority
- Ensure that information is shared only with those people who need to know in order to protect the child and act in their best interest
- Ensure that staff identify, minimise and manage risks while caring for children

Take any appropriate action relating to allegations of harm or abuse against any person working with children, including reporting such allegations to Ofsted and other relevant authorities.

- Ensure parents are fully aware of our safeguarding and child protection policies and procedures when they register with the nursery and are kept informed of all updates when they occur
- Regularly review and update this policy with staff and parents where appropriate and make sure it complies with any legal requirements and any guidance or procedures issued by Somerset Local Authority.

We are committed to an inclusive, anti-racist and anti-discriminatory safeguarding culture. Staff must remain alert to the impact of racism, discrimination, bias and disproportionality on children

and families and must professionally challenge discriminatory language, behaviour or decision-making.

Designated Safeguarding Lead (DSL)

The DSL has overall responsibility for the Safeguarding children and child protection policy and procedures. It is their role to ensure that the policy and procedures are implemented to safeguard and promote the welfare of children. They are responsible for coordinating safeguarding and child protection training for staff across the organisation.

There is always at least one designated person on duty during the opening hours of the setting. The designated persons receive comprehensive training at least every two years and update their knowledge on an ongoing basis, but at least once a year. They in turn support the ongoing development and knowledge of the staff team with regular safeguarding updates.

Little Explorers DSLs:

The setting has a team of trained Designated Safeguarding Leads (DSLs), including:

All Managers - Claire Aquilina (Manager), Floor Supervisor and Quality Lead, Amy Purt (Stand in Deputy Manager) and Gemma Roberts (Owner).

Main DSL: Claire Aquilina - Manager

There is always a DSL on site during operational hours.

The role of the DSL is to:

- Monitor and update the Safeguarding children and child protection policy and procedures in line with new legislation and to ensure it is effective. This will be done by making sure that everyone understands the correct procedures during their individual annual review
- Ensure updates and new legislation are reflected in our services as soon as they are known
- Act as a source of support, advice and expertise for all staff, students, volunteers, children and parents who have child protection concerns
- Ensure detailed, accurate, secure written records of concerns and referrals
- Review all written safeguarding reports
- Assess information provided promptly, carefully and refer as appropriate to external agencies
- Provide signposting to other organisations
- Consult with statutory child protection agencies and regulatory bodies where required
- Make formal referrals to statutory child protection agencies or the police, as required.

In addition, the DSL is required to:

- Keep up-to-date with good practice and statutory requirements for safeguarding and child protection
- Provide information on safeguarding and child protection for the setting
- Raise awareness of any safeguarding and child protection training needs and implement where necessary
- Retain up-to-date knowledge of the role of the local safeguarding partnership arrangements and local child protection procedures.

The DSL does not investigate whether or not a child has been abused or investigate an allegation or disclosure. Investigations are for the appropriate authorities, usually the police, LADO and social services.

The DSL will professionally challenge, escalate and follow up concerns where necessary in the best interests of the child, including where responses from other agencies are delayed, unclear or do not appear to adequately safeguard the child.

Sharing low-level concerns

On occasion, inappropriate, problematic or concerning behaviour by staff or other adults is observed but does not meet the threshold for significant harm. This may be classed as a 'low-level' concern, although this does not mean that it is insignificant.

We define a low-level concern as:

- Any concern, no matter how small, that an adult working with children may have acted in a way that is inconsistent with our Staff behaviour policy, including inappropriate behaviour outside of work
- A concern that may be a sense of unease or a 'nagging doubt' and does not meet the harm threshold or is serious enough to refer to the LADO.

We encourage a culture of openness, trust and transparency, with clear values and expected behaviour, monitored and reinforced by all staff. All concerns or allegations, however small, will be shared and responded to. All concerns will be shared with the DSL, or other nominated person, as in our reporting procedures. We encourage concerns to be shared as soon as reasonably practicable and preferably within 24 hours of becoming aware of it. However, it is never too late to share a low-level concern.

It is not expected that staff will be able to determine whether the behaviour in question is a concern, complaint or allegation before sharing the information. If the DSL is in any doubt as to whether the information meets the harm threshold, they will consult the LADO.

Occasionally a member of staff may find themselves in a situation which could be misinterpreted or appear compromising to others. If this occurs, staff are encouraged to self-report to the DSL. Equally, a member of staff may have behaved in a manner which, on reflection, falls below the standards set in our Staff behaviour policy. If this occurs, staff are encouraged to self-report to the DSL. We encourage staff to be confident to self-refer and believe it reflects awareness of our standards of conduct and behaviour.

When the DSL receives the information, they will need to determine whether the behaviour:

- Meets, or may meet, the harm threshold (and so contact the LADO)
- Meets the harm threshold when combined with previous low-level concerns (and so contact the LADO)
- Constitutes a 'low-level' concern
- Is appropriate and consistent with the law, statutory requirements and our Staff behaviour policy.

The DSL will make appropriate records of all information shared, including:

- With the reporting person
- The subject matter of the concern
- Any relevant witnesses (where possible)
- Any external discussions such as with the LSP or LADO
- Their decision about the nature of the concern
- Their rationale for that decision
- Any action taken.

This constitutes a record of low-level concern. We retain all records of low-level concerns in a separate low-level concerns file, with separate concerns regarding a single individual kept as a chronology. These records are kept confidential and held securely, accessed only by those who have appropriate authority. Records will be retained at least until the individual leaves their employment.

If the low-level concern raises issues of misconduct, then appropriate actions following our Disciplinary procedures will be taken. Records will be kept in personnel files.

Attendance and Absence Monitoring

As part of our requirements under the statutory framework we are required to monitor children's attendance patterns to ensure they are consistent and no cause for concern.

We ask parents to inform the nursery prior to their children taking holidays or days off, and all incidents of sickness absence should be reported to the nursery the same day so the nursery management are able to account for a child's absence.

If a child has not arrived at nursery within one hour of their normal start time, the parents will be contacted to ensure the child is safe and healthy. If the parents are not contactable then the emergency contacts numbers listed will be used to ensure all parties are safe. Staff will work their way down the emergency contact list until contact is established and we are made aware that all is well with the child and family.

If contact cannot be established then we would assess if a home visit (welfare check) were required to establish all parties are safe. If contact is still not established, we would assess if it would be appropriate to contact relevant authorities, including the police, in order for them to investigate further.

Where a child is part of a child protection plan, or during a referral process, any absences will immediately be reported to the Local Authority children's social care team to ensure the child remains safe and well.

At Little Explorers, regular attendance is essential for children's wellbeing, safety, and learning. Monitoring attendance also helps us meet our safeguarding responsibilities and comply with Early Years funding requirements.

Procedure for Unexplained Absences:

- If a child is absent without prior notice, the Room Leader notifies the Office or Manager immediately.
- We will attempt to contact the parent/carer within one hour.

- If no response is received, the absence is escalated to the Designated Safeguarding Lead (DSL) who assesses any safeguarding risk. If deemed necessary our Safeguarding Procedure will be implemented.
- If necessary, this may lead to a welfare check, referral to Early Help, or consultation with the Multi-Agency Safeguarding Hub (MASH).
- All unexplained absences are recorded and monitored for patterns of concern.

Safeguarding Context:

Unexplained or irregular absences may indicate safeguarding risks such as abuse, neglect, domestic violence, or unauthorised travel (including concerns around FGM or forced marriage). Staff must report any concerns to the DSL without delay.

Concerns will be reported to the DSL and, where appropriate, a referral will be made to the Channel programme or police.

Ongoing Monitoring:

The DSL and Nursery Manager regularly review attendance data to identify persistent absence or irregular patterns. Where appropriate, parents may be contacted for discussion, and concerns may be escalated to external agencies if necessary.

Funded Children:

Children in receipt of Early Years funding must maintain regular attendance. Prolonged or irregular absences may result in notification to the Local Authority and a review of funding eligibility.

Please refer to our full Monitoring Attendance and Absence Policy and Procedure for further details.

Banned-dog requirement

Registered childcare will not be provided from any premises where a dog prohibited under section 1 of the Dangerous Dogs Act 1991, including an XL Bully type, is kept or present. This prohibition applies even where the dog has been issued with a certificate of exemption.

Statutory screen-use requirement

When using screens with children, the nursery will have regard to the Department for Education's guidance on children's screen use in early years settings. Screen use will be purposeful, age appropriate, supervised and balanced with opportunities for physical activity, communication, social interaction, creative play and first-hand experiences. Screens will not routinely replace responsive adult interaction, active play or sleep and rest opportunities.

Safer sleep requirements

Sleeping children will be cared for in accordance with the nursery's Sleeping Babies, Toddlers and Rest Policy and the statutory safer-sleep requirements within the EYFS. This includes the requirement that babies under six months have an adult in the same room throughout every sleep and that all sleeping children remain within sight and hearing of staff.

Informing parents

Parents are normally the first point of contact. If a suspicion of abuse is recorded, parents are informed at the same time as the report is made, except where the guidance of the Local Authority children's social care team, police or LADO does not allow this to happen.

This will usually be the case where the parent or family member is the likely abuser or where a child may be endangered by this disclosure. In these cases the investigating officers will inform parents.

Support to families

The nursery takes every step in its power to build up trusting and supportive relationships among families, staff, students and volunteers within the nursery.

The nursery will continue to welcome a child and their family whilst enquiries are being made in relation to abuse in the home situation. Parents and families will be treated with respect in a non-judgmental manner whilst any external investigations are carried out in the best interest of the child.

Confidentiality

Confidentiality must not override the right of children to be protected from harm. However, every effort will be made to ensure confidentiality is maintained for all concerned if an allegation has been made and is being investigated.

If uncertain about whether sensitive information can be disclosed to a third party, contact the DSL or call the Information Commissioner's Office on 0303 123 1113. They will provide advice about the particulars relating to each individual case, including information which can and cannot be shared.

Staff must not make any comments either publicly or in private about the supposed or actual behaviour of a parent, child or member of staff.

Record keeping and data protection

Confidential records kept on a child are shared with the child's parents or those who have parental responsibility for the child, only if appropriate and in line with guidance of the Local Authority with the provision that the care and safety of the child is paramount. We will do all in our power to support and work with the child's family.

The nursery keeps appropriate records to support the early identification of children and families which would benefit from early help. Factual records are maintained in a chronological order with parental discussions. Records are reviewed regularly by the DSL to look holistically at identifying children's needs.

Our Data protection and confidentiality policy will be applied with regards to any information received from an individual. Only persons involved in the investigation should handle this information although any investigating body will have access to all information stored in order to support an investigation.

PART 2: Definitions of abuse

Definition of significant harm

The Children Act 1989 introduced the concept of significant harm as ‘the threshold that justifies compulsory intervention in family life in the best interests of children’. It gives LAs a duty to make enquires to decide whether they should take action to safeguard or promote the welfare of a child who is suffering, or likely to suffer, significant harm.

Whilst there are no absolute criteria to rely on when judging what constitutes significant harm, consideration should be given to:

- The severity of the ill-treatment, including the degree of harm
- The extent and frequency of abuse and/or neglect
- The impact this is likely to have, or is having, on the child involved.

This may be a single traumatic event, such as a violent assault, suffocation or poisoning, or it can be a combination of events (both acute and long-standing) that impairs the physical, intellectual, emotional, social or behavioural development of the child.

Definitions of abuse and neglect

Abuse and neglect are forms of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm, or by failing to act to prevent harm. Children may be abused within a family, institution or community setting by those known to them or, more rarely, a stranger. Perpetrators of abuse can be an adult, or adults, another child or children.

(What to do if you're worried a child is being abused: Advice for practitioners, 2015 and Working Together to Safeguard Children, 2026)

The signs and indicators listed below may not necessarily indicate that a child has been abused, but can help to indicate that something may be wrong, especially if a child shows a number of these symptoms, or any of them to a marked degree.

Indicators of child abuse

- Failure to thrive and meet developmental milestones
- Fearful or withdrawn tendencies
- Unexplained injuries to a child or conflicting reports from parents or staff
- Repeated injuries
- Unaddressed illnesses or injuries
- Significant changes to behaviour patterns.

Softer signs of abuse as defined by National Institute for Health and Care Excellence (NICE) include:

Child-on-child abuse

Child-on-child abuse is also known as peer-on-peer abuse; children are included as potential abusers in our policies. Child-on-child abuse may take the form of bullying, physically hurting another child, emotional abuse or sexual abuse. Reporting procedures in these instances remain the same although additional support from relevant agencies may be required to support both the victim and the perpetrator. Children who develop harmful behaviours are also likely to be victims of abuse or neglect.

If child-on-child abuse is suspected, then any concerns must be reported in line with our safeguarding procedures.

Physical abuse

A form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child.

If physical abuse is suspected, then any concerns must be reported in line with our safeguarding procedures.

Fabricated or induced illness (FII)

This abuse is when a parent fabricates the symptoms of, or deliberately induces, illness in a child. The parent may seek out unnecessary medical treatment or investigation. They may exaggerate a real illness and symptoms, or deliberately induce an illness through poisoning with medication or other substances, or they may interfere with medical treatments. This may also be presented through false allegations of abuse or encouraging the child to appear disabled or ill to obtain unnecessary treatment or specialist support.

FII is a form of physical abuse and any concerns must be reported in line with our safeguarding procedures.

Female genital mutilation (FGM)

FGM is a procedure where the female genital organs are injured or changed with no medical reason. The procedure may be carried out shortly after birth, during childhood or adolescence, just before marriage or during a woman's first pregnancy, according to the community.

It is frequently a very traumatic and violent act for the victim and can cause harm in many ways. The practice can cause severe pain and there may be immediate and/or long-term health consequences, including mental health problems, difficulties in childbirth, causing danger to the child and mother, and/or death (definition taken from the Multi-agency statutory guidance on female genital mutilation). Other consequences include shock, bleeding, infections (tetanus, HIV and hepatitis B and C) and organ damage.

Any concern that a girl may be at risk of FGM must be reported immediately to the DSL and referred through safeguarding procedures. Where a teacher or other regulated professional is informed directly by a girl under 18 that FGM has been carried out, or personally observes physical signs appearing to show that FGM has been carried out, that professional has a personal legal duty to report the known case directly to the police. The DSL must also be informed unless doing so would create an immediate safeguarding risk.

FGM is a form of physical abuse and any concerns must be reported in line with our safeguarding procedures. In addition, there is a mandatory duty to report to police any case where an act of FGM appears to have been carried out on a girl under the age of 18.

Breast ironing or breast flattening

Breast ironing, also known as breast flattening, is a process where young girls' breasts are ironed, massaged and/or pounded down through the use of hard or heated objects in order for the breasts to disappear or to delay the development of the breasts entirely. It is believed that by carrying out this act, young girls will be protected from harassment, rape, abduction and early forced marriage. These actions can cause serious health issues such as abscesses, cysts, itching, tissue damage, infection, discharge of milk, dissymmetry of the breasts, severe fever.

Breast ironing/flattening is a form of physical abuse and any concerns must be reported in line with our safeguarding procedures.

Emotional abuse

Working together to safeguard children (2026) defines emotional abuse as ‘the persistent emotional maltreatment of a child such as to cause severe and persistent adverse effects on the child’s emotional development.’ Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur separately.

Examples of emotional abuse include:

- Conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person
- Not giving a child opportunity to express their views, deliberately silencing them or ‘making fun’ of what they say or how they communicate
- Age or developmentally inappropriate expectations being imposed, such as interactions that are beyond a child’s developmental capability, as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction
- Serious bullying (including cyber bullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children
- A child seeing or hearing the ill-treatment of another.

A child may also experience emotional abuse through witnessing domestic abuse or alcohol and drug misuse by adults caring for them. In England, The Domestic Abuse Act (2021) recognises in law that children are victims of emotional abuse if they see, hear or otherwise experience the effects of domestic abuse.

Signs and indicators may include delay in physical, mental and/or emotional development, sudden speech disorders, overreaction to mistakes, extreme fear of any new situation, neurotic behaviour (rocking, hair twisting, self-mutilation), extremes of passivity or aggression, appearing to lack confidence or self-assurance.

If emotional abuse is suspected, then any concerns must be reported in line with our safeguarding procedures.

Sexual abuse

Sexual abuse involves forcing, or enticing, a child to take part in sexual activities. Sexual abuse does not necessarily involve a high level of violence and includes whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example, rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse.

Sexual abuse can take place online and technology can be used to facilitate offline abuse. Adult males are not the sole perpetrators of sexual abuse; women also commit acts of sexual abuse, as do other children. This policy applies to all children up to the age of 18 years.

Action must be taken if staff witness symptoms of sexual abuse including a child indicating sexual activity through words, play or drawing, having an excessive preoccupation with sexual matters or having an inappropriate knowledge of adult sexual behaviour, or language, for their developmental age. This may include acting out sexual activity on dolls or toys or in the role-play area with their peers, drawing pictures that are inappropriate for a child, talking about sexual activities or using sexual language or words.

Additional signs of emotional and physical symptoms are shown below.

Emotional signs	Physical signs
• Being overly affectionate or knowledgeable in a sexual manner inappropriate to the child's age or stage of development • Personality changes, such as becoming insecure or clingy • Regressing to younger behaviour patterns, such as thumb sucking or bringing out discarded cuddly toys • Sudden loss of appetite or compulsive eating • Being isolated or withdrawn • Inability to concentrate • Lack of trust or fear of someone they know well, such as a parent, to be alone with a carer • Becoming worried about clothing being removed.	• Bruises • Bleeding, discharge, pains or soreness in their genital or anal area • Sexually transmitted infections • Pregnancy.

If sexual abuse is suspected, then any concerns must be reported in line with our safeguarding procedures.

Neglect

Working together to safeguard children (2026) defines neglect as ‘the persistent failure to meet a child’s basic physical and/or psychological needs, likely to result in the serious impairment of the child’s health or development.’

Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve adults involved in the care of the child failing to:

- Provide adequate food, clothing and shelter (including exclusion from home or abandonment)
- Protect them from physical harm or danger
- Ensure adequate supervision (including the use of inadequate caregivers)
- Ensure access to appropriate medical care or treatment
- Respond to their basic emotional needs.

Signs of neglect include a child persistently arriving at nursery unwashed or unkempt, wearing clothes that are too small (especially shoes that may restrict the child's growth or hurt them), arriving at nursery in the same nappy they went home in, or a child having an illness or identified special educational need or disability that is not being addressed. A child may be persistently hungry if a caregiver is withholding, or not providing enough, food. A child who is not receiving the attention they need at home may crave it from other adults, such as at nursery or school.

If neglect is suspected, then any concerns must be reported in line with our safeguarding procedures.

Domestic abuse

The definition of domestic abuse from the Domestic Abuse Act, 2021 is:

Behaviour of a person (A) towards another person (B) is 'domestic abuse' if:

- A and B are each aged 16 or over and are personally connected to each other
- The behaviour is abusive.

Behaviour is 'abusive' if it consists of any of the following:

- Physical or sexual abuse
- Violent or threatening behaviour
- Controlling or coercive behaviour
- Economic abuse (any behaviour that has a substantial adverse effect on B's ability to acquire, use or maintain money or other property and/or obtain goods or services)
- Psychological, emotional or other abuse.

It does not matter whether the behaviour consists of a single incident or a course of conduct.

Domestic abuse can happen to anyone regardless of gender, age, social background, religion, sexuality or ethnicity and domestic abuse can happen at any stage in a relationship.

Signs and symptoms of domestic abuse include:

- Changes in behaviour (for example, becoming very quiet, anxious, frightened, tearful, aggressive, distracted, depressed etc.)
- Visible bruising or single, or repeated, injury with unlikely explanations
- Change in the manner of dress (for example, clothes to hide injuries that do not suit the weather)
- Stalking, including excessive phone calls or messages
- Partner or ex-partner exerting an unusual amount of control or demands over work schedule
- Frequent lateness or absence from work.

All children can witness and be adversely affected by domestic abuse in the context of their home life. Exposure to domestic abuse and/or violence can have a serious, long lasting emotional and psychological impact on children. Children who witness, hear about or return home following a domestic abuse incident are classed as victims in their own right.

Where incidents of domestic abuse are shared by our own staff, students or volunteers we will respect confidentiality at all times and not share information without their permission. However, we will share this information, without permission, in cases of child protection or where we believe there is an immediate risk of serious harm to the person involved.

If domestic abuse is suspected, then any concerns must be reported in line with our safeguarding procedures.

Contextual safeguarding

As young people grow and develop, they may be vulnerable to abuse or exploitation from outside their family. These extra-familial threats might arise at school and other educational establishments, from within peer groups, or more widely from within the wider community and/or online.

As part of our safeguarding procedures we will work in partnership with parents and other agencies to work together to safeguard children and provide the support around contextual safeguarding concerns.

Child sexual exploitation (CSE) and Child criminal exploitation (CCE)

Both CSE and CCE are forms of abuse that occur where an individual or group takes advantage of an imbalance in power to coerce, manipulate or deceive a child into taking part in sexual or criminal activity, in exchange for something the victim needs or wants, and/or for the financial advantage or increased status of the perpetrator or facilitator and/or through violence or the threat of violence. CSE and CCE can affect children, both male and female and can include children who have been moved (commonly referred to as trafficking) for the purpose of exploitation.

Child sexual exploitation (CSE)

CSE is where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child into sexual activity. The victim may have been sexually exploited even if the sexual activity appears consensual. CSE does not always involve physical contact; it can also occur through the use of technology and may be without the child's immediate knowledge such as through others copying videos or images they have created and posted on social media.

Signs and symptoms include:

- Physical injuries such as bruising or bleeding
- Having money or gifts they are unable to explain
- Sudden changes in their appearance
- Becoming involved in drugs or alcohol, particularly if it is suspected they are being supplied by older men or women
- Becoming emotionally volatile (mood swings are common in all young people, but more severe changes could indicate that something is wrong)
- Using sexual language beyond that expected for their age or stage of development

- Engaging less with their usual friends
- Appearing controlled by their phone
- Switching to a new screen when you come near the computer
- Nightmares or sleeping problems
- Running away, staying out overnight, missing school
- Changes in eating habits
- Talk of a new, older friend, boyfriend or girlfriend
- Losing contact with family and friends or becoming secretive
- Contracting sexually transmitted diseases.

If involvement in county lines is suspected, then any concerns must be reported in line with our safeguarding procedures.

Child Criminal Exploitation (CCE)

CCE is where an individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child into any criminal activity. The victim may have been criminally exploited even if the activity appears consensual. CCE does not always involve physical contact; it can also occur through the use of technology.

Other examples include children being forced to work in cannabis factories, being coerced into moving drugs or money across the country forced to shoplift or pickpocket, or to threaten other young people. Signs and symptoms of CCE are similar to those for CSE.

If CSE or CCE is suspected, then any concerns must be reported in line with our safeguarding procedures.

County Lines

The National Crime Agency (NCA) defines county lines as gangs and organised criminal networks involved in exporting illegal drugs from big cities into smaller towns, using dedicated mobile phone lines or other form of 'deal line.' Customers live in a different area to the dealers, so drug runners are needed to transport the drugs and collect payment.

Perpetrators often use coercion, intimidation, violence (including sexual violence) and weapons to ensure compliance of victims. A child is targeted and recruited into county lines through schools, further and higher educational institutions, pupil referral units, special educational needs schools, children's homes and care homes.

Signs and symptoms include:

- Changes in dress style
- Unexplained, unaffordable new things (for example, clothes, jewellery, cars etc.)
- Missing from home or school and/or significant decline in performance
- New friends with those who don't share any mutual friendships with the victim, gang association or isolation from peers or social networks
- Increase in anti-social behaviour in the community including weapons
- Receiving more texts or calls than usual
- Unexplained injuries

- Significant changes in emotional well-being
- Being seen in different cars or taxis driven by unknown adults
- A child being unfamiliar with where they are.

Cuckooing

Cuckooing is a form of county lines crime. In this instance, the drug dealers take over the home of a vulnerable person in order to criminally exploit them by using their home as a base for drug dealing, often in multi-occupancy or social housing properties.

Signs and symptoms include:

- An increase in people, particularly unknown people, entering or leaving a home or taking up residence
- An increase in cars or bikes outside a home
- A neighbour who hasn't been seen for an extended period
- Windows covered or curtains closed for a long period
- Change in resident's mood and/or demeanour (for example, secretive, withdrawn, aggressive or emotional)
- Substance misuse and/or drug paraphernalia
- Increased anti-social behaviour.

If cuckooing is suspected, then any concerns must be reported in line with our safeguarding procedures.

Child trafficking and modern slavery

Child trafficking and modern slavery is when children are recruited, moved, transported and then exploited, forced to work or are sold.

For a child to have been a victim of trafficking there must have been:

- Action: recruitment, transportation, transfer, harbouring or receipt of a child for the purpose of exploitation
- Purpose: sexual exploitation, forced labour or domestic servitude, slavery, financial exploitation, illegal adoption, removal of organs.

Modern slavery includes slavery, servitude and forced or compulsory labour and child trafficking. Victims of modern slavery are also likely to be subjected to other types of abuse such as physical, sexual and emotional abuse.

Signs and symptoms for children include:

- Being under control and reluctant to interact with others
- Having few personal belongings, wearing the same clothes every day or wearing unsuitable clothes
- Being unable to move around freely
- Appearing frightened, withdrawn, or showing signs of physical or emotional abuse.

If child trafficking or modern slavery are suspected, then any concerns must be reported in line with our safeguarding procedures.

Forced marriage

A forced marriage is defined as ‘a marriage in which one, or both spouses, do not consent to the marriage but are coerced into it. Duress can include physical, psychological, financial, sexual and emotional pressure.’

Where incidents of forced marriage are shared by our own staff, students or volunteers, we will respect confidentiality at all times and not share information without their permission. However, we will share this information without permission in cases of child protection, or where we believe there is an immediate risk of serious harm to the person involved.

If it is suspected that a forced marriage is being planned, then any concerns must be reported in line with our safeguarding procedures.

Honour based abuse (HBA)

HBA is described as ‘incidents or crimes which have been committed to protect or defend the honour of the family and/or the community, including female genital mutilation (FGM), forced marriage, and practices such as breast ironing.’. Such abuse can occur when perpetrators perceive that a relative has shamed the family and/or community by breaking their ‘honour’ code. It is a violation of human rights and may be domestic, emotional and/or sexual abuse such as being held against their will, threats of violence or actual assault. It often involves wider family networks or community pressure and so can include multiple perpetrators.

Signs and symptoms of HBA include:

- Changes in how the child dresses or acts, such as not ‘western’ clothing or make-up
- Visible injuries, or repeated injury, with unlikely explanations
- Signs of depression, anxiety or self-harm
- Frequent absences
- Restrictions on friends or attending events.

Where incidents of HBA are shared by our own staff, students or volunteers, we will respect confidentiality at all times and not share information without their permission. However, we will share this information without permission in cases of child protection, or where we believe there is an immediate risk of serious harm to the person involved.

If honour based abuse is suspected, then any concerns must be reported in line with our safeguarding procedures.

Child abuse linked to faith or belief (CALFB)

Child abuse linked to faith or belief (CALFB) can happen in families when there is a concept of belief in:

- Witchcraft and spirit possession, demons or the devil acting through children or leading them astray (traditionally seen in some Christian beliefs)

- The evil eye or djinns (traditionally known in some Islamic faith contexts) and dakini (in the Hindu context)
- Ritual or multi-murders where the killing of children is believed to bring supernatural benefits, or the use of their body parts is believed to produce potent magical remedies
- Use of belief in magic or witchcraft to create fear in children to make them more compliant when they are being trafficked for domestic slavery or sexual exploitation
- Children's actions are believed to have brought bad fortune to the family or community.

If CALFB is suspected, then any concerns must be reported in line with our safeguarding procedures.

Extremism and radicalisation

Under the Counter-Terrorism and Security Act 2015, there is a duty to safeguard vulnerable and at risk children by preventing them from being drawn into terrorism. This is known as the Prevent Duty.

Children can be exposed to different views and receive information from various sources and some of these views may be considered radical or extreme. Radicalisation is the way a person comes to support or be involved in extremism and terrorism; usually it's a gradual process so those who are affected may not realise what's happening. Radicalisation is a form of harm. The process may involve:

- Being groomed online or in person
- Exploitation, including sexual exploitation
- Psychological manipulation
- Exposure to violent material and other inappropriate information
- The risk of physical harm or death through extremist acts.

For further information visit The Prevent Duty website. Concerns will be reported to the DSL and, where appropriate, a referral will be made to the Channel programme or police.

If radicalisation or extremism is suspected, then any concerns must be reported in line with our safeguarding procedures. This includes reporting concerns to the police.

Online safety

While the growth of internet and mobile device use brings many advantages, the use of technology has become a significant component of many safeguarding issues such as child sexual exploitation and radicalisation. Nude/semi-nude image sharing, AI-generated images/deepfakes, livestreaming, grooming, and staff use of personal devices.

There are four main areas of risk associated with online safety:

- Content - being exposed to illegal, inappropriate or harmful material such as pornography, fake news, racist or radical and extremist views
- Contact - being subjected to harmful online interaction with other users such as commercial advertising or adults posing as children or young adults

- Conduct - personal online behaviour that increases the likelihood of, or causes, harm, such as making, sending and receiving explicit images and online bullying
- Commerce - risks such as online gambling, inappropriate advertising, phishing and or financial scams.

Report online safety concerns to the DSL and to the Child Exploitation and Online Protection www.ceop.police.uk/Safety-Centre/

Inappropriate content received via email must be reported to the DSL and to the Internet Watch www.iwf.org.uk/

Up skirting/down blousing

Up skirting and down blousing are criminal offences. They involve taking pictures of someone's genitals, buttocks or other intimate images under their clothing without them knowing, either for sexual gratification or in order to humiliate, or distress, the individual.

If up skirting or down blousing is suspected, then any concerns must be reported in line with our safeguarding procedures.

PART 3: Reporting procedures

Public interest disclosure (whistleblowing)

Whistleblowing is the term used when a worker passes on information concerning wrongdoing. All safeguarding allegations, internal or external, current or historical, must be passed on the DSL. We will cooperate fully with the authorities involved and follow any guidance given.

We believe keeping children safe is the highest priority and if, for whatever reason, concerns cannot be reported to the DSL or deputy DSL, concerns can be reported anonymously to the NSPCC, the police or the LA social services safeguarding children team. We have regard to relevant principles from Keeping Children Safe in Education 2026 as best practice where appropriate to early years provision.

Allegation against our staff

An allegation against our staff may relate to a person who has:

- Behaved in a way that has harmed a child, or may have harmed a child
- Possibly committed a criminal offence against or related to a child
- Behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children, or
- Behaved or may have behaved in a way that indicates they may not be suitable to work with children.

We will make every effort to maintain the confidentiality of all parties while an allegation or concern is being investigated. Dealing with an allegation can be a stressful experience and, to support the staff member, the DSL to liaise with will be offered. The timeframes for an investigation will follow the guidelines of other involved authorities.

We reserve the right to suspend a staff member until the investigation is concluded. Further action will be determined by the outcome of the investigation.

Founded allegations are considered gross misconduct, in accordance with our disciplinary procedures, and may result in the termination of employment. We retain the right to dismiss any member of staff in connection with founded allegations following an inquiry.

A referral will be made to the Disclosure and Barring Service and Ofsted where the statutory referral conditions are met, including where a person is removed from regulated activity, or would have been removed had they not resigned or otherwise left, because they harmed a child or placed a child at risk of harm.

Records relating to allegations against adults

All safeguarding records are kept until the person reaches normal retirement age or for 21 years and 3 months, if that is longer. This will ensure accurate information is available for references and future DBS checks and avoids unnecessary reinvestigation.

Unfounded allegations will result in all rights being reinstated. A return to work plan will be put in place for any member of staff returning to work after an allegation has been deemed unfounded. Individual support will be offered to meet the needs of the staff member and the nature of the incident such as more frequent supervisions, coaching and mentoring or external support services.

If the member of staff resigns during the investigation, we will inform DBS, Ofsted and the police, where appropriate.

Support for staff during safeguarding incidents

The DSL will support staff throughout any of the processes listed above and will organise appropriate counselling should this be required.

Any member of staff who has concerns about the content of this policy and its procedures, should speak to the DSL as soon as possible. If any member of staff wishes to talk confidentially about any safeguarding concern or any other issue relating to child protection or personal circumstance, it is important to do this as soon as possible.

Reporting procedure

We will always act on behalf of the child and will do everything possible to ensure the safety and welfare of any child and so will take all allegations of potential abuse seriously. All concerns reported to staff will be pursued, regardless of the nature of the concern and to whom the allegation relates.

All staff have a responsibility to report safeguarding and child protection concerns and suspicions of abuse. These concerns will be discussed with the DSL as soon as possible, as follows:

	Staff member role on receiving information that causes a safeguarding concern	DSL role on receiving information that causes a safeguarding concern
Step 1	· Contact the DSL immediately. This must be a verbal conversation to ensure the concern is clearly understood and action is taken · If the DSL is unavailable, contact the Deputy DSL, social services or police until you are able to have a verbal conversation · For children who arrive at nursery with an existing injury, an 'incident outside nursery' form will be completed. If there are queries or concerns regarding the injury or information given, follow these procedures.	· If it is believed a child is in immediate danger, contact the police

Step 2	• Write an objective report including: - Child's name and address - Age and date of birth - Date, time and location of the observation or disclosure - Exact words spoken by the child (as close to word-for-word as possible) and non-verbal communication - Outline of the concern - Exact position and type of any injuries or marks seen - Exact observation of any incident or concern reported and the names of any other person present at the time - Any known confidentiality issues - Signature and date of person making the report and the DSL or other nominated individual receiving the report	• Sign and date report received from staff member • Securely store the information according to the nursery procedures • If the safeguarding concern relates to a child, contact the Local Authority children's social care team, report concerns and seek advice immediately, or as soon as it is practical to do so • If the safeguarding concern relates to an allegation against an adult working or volunteering with children, contact the Local Authority Designated Officer (LADO) and request a confirmation email of the report, then report the concern to Ofsted • A full investigation into any allegation will be carried out by the appropriate professionals to determine how this will be handled • Note any actions requested by LADO / Ofsted and follow any instructions received
Step 3	• If you feel the report is not being taken seriously or are worried about an allegation getting back to the person in question, then it is your duty to inform the Local Authority children's social care team yourself directly • Follow all instructions from the Local Authority children's social care team and/or Ofsted, co-operating where required	• If appropriate, discuss the concerns or incidents with parent(s), unless it is believed that this would place the child at greater risk of harm • Record all discussions (remember parents will have access to these records on request in line with GDPR and data protection guidelines) • Follow all instructions from the Local Authority children's social care team and/or Ofsted, co-operating where required • Record information and actions taken

Step 4		· If the DSL is not the owner/manager and there is an allegation against a member of staff, then the owner/manager must be informed as they have a duty of care for their employees
Step 5		· If the Local Authority children's social care team have not been in contact within the timeframe set out in Working Together to Safeguarding Children (2026), it must be followed up · Never assume that action has been taken
Step 6	· Safeguarding procedures will be reviewed to ensure the process has been applied in line with the policy	

If a concern is raised anonymously and we have no contact details, we will treat the concern as valid and follow the procedures as above. If a malicious call is suspected, the procedures will still be followed: a child may be in danger. The Information Commissioners Office (ICO) will be contacted to ensure permitted data sharing.

PART 4: Recruitment, selection, induction and training

Recruitment and selection

Through the implementation of our Safer Recruitment Policy, we aim to prevent unsuitable people from working with children at Little Explorers. We follow robust recruitment and vetting procedures to help ensure that all staff, students, volunteers and any other adults working with children are suitable, safe and appropriate for their role. This includes obtaining references and an Enhanced DBS Check before recruitment, verifying identity, checking qualifications, exploring employment history, and carrying out the relevant criminal records and suitability checks in line with current legislation and EYFS requirements. Clear job descriptions, person specifications, application processes and safeguarding-focused interviews help us assess each candidate's suitability for the role.

Before commencing employment, we require:

- A full application and employment history, including an explanation of any gaps in employment, training or education.
- A face-to-face interview which includes questions relating to safeguarding, child protection, professional conduct and the suitability of the candidate to work with children.
- Verification of the applicant's identity and right to work in the UK.
- Original qualification certificates to be seen and checked, where qualifications are required for the role.

- Completion of our safer recruitment and suitability processes, including a declaration of any information that may affect suitability to work with children.
- A minimum of two satisfactory references obtained before appointment, including from the most recent employer and, where relevant, from any role involving children or vulnerable people.
- References will not be accepted if they are open testimonials, supplied only by the applicant, or provided by a family member. References will be checked and, where necessary, verified directly by the manager and followed up for clarification.
- References will be sought directly from the referee using a professional email address where possible and will be verified where there are concerns about authenticity.
- An enhanced DBS check and any other checks required for the role.
- No new employee will begin working at the setting until the nursery has received and checked their enhanced DBS certificate and any required barred list information. Where the person subscribes to the DBS Update Service, the nursery will complete and record an appropriate status check before employment begins. Where applicable, staff may be asked to subscribe to the DBS Update Service. Where this is used, the nursery will carry out periodic status checks in line with our internal safer recruitment procedures.
- Where appropriate and proportionate, publicly available online information may be considered as part of the recruitment process to help assess suitability for working with children.
- Further information may be sought where necessary to clarify a person's suitability for the post.
- All volunteers aged 16 or over who work directly with children, or who regularly undertake regulated activity within the setting, must have an enhanced DBS check and any required barred-list check before they begin volunteering. This includes volunteers who will be supervised. The limited exception for an occasional supervised volunteer, such as a parent helping on a one-off outing without providing personal care, will only be applied following a written risk assessment and confirmation that the statutory exception applies.

This section must be read in conjunction with our Safer Recruitment Policy, Staff Suitability Policy, Disciplinary Policy, Whistleblowing Policy, and Safeguarding Children and Child Protection Policy.

We have specific safeguarding responsibilities, as outlined in this policy, for any staff, apprentices, students and learners under the age of 18, whether living with their families, in care, or living independently.

Staff and prospective staff must disclose without delay any information that may affect their suitability to work with children. This includes arrests, charges, convictions, cautions, court orders, reprimands, warnings, disqualification information or any other relevant involvement with the police, children's social care or safeguarding authorities, whether this occurs before or during employment. Protected convictions and cautions do not have to be disclosed where legislation provides that they are protected.

Induction and probation for staff

As part of our induction process, all new workers will receive basic training on this Safeguarding children and child protection policy so they have the necessary knowledge and skills to safeguard and promote the welfare of children.

Before commencing employment all staff will receive a copy of this policy. It is the line manager's responsibility to ensure that the new staff member understands it and is able to follow it. All safeguarding training must be completed by the end of the probationary period.

All staff are expected to keep their safeguarding knowledge and skills up-to-date and report any concerns they may have. We maintain records to ensure all staff have received the training they need.

Learners on placements or in employment

We hold responsibility for ensuring that learners on placement or in employment are familiar with and sign up to this policy and agree to work within this framework. Learners will receive basic child protection training prior to starting their placement.

Learners and students under the age of 18 will be protected as children. Risk assessments will be completed to ensure their safety and well-being are protected and supported during their employment or training period. If situations arise during employment or placement which identifies those aged 18 or under are at risk from abuse or neglect, we will contact the appropriate bodies to ensure the individual is safeguarded.

Responding to and recording disclosures

Staff, volunteers or students may receive a safeguarding disclosure. See the guidance below for responding to and reporting disclosures of abuse.

Responding to a child's disclosure of abuse - what to do and say

- Stay calm and listen carefully
- Try not to look shocked and reassure them that this is not their fault
- Find an appropriate opportunity to say that the information will need to be shared and do not promise to keep the information shared a secret
- Allow the child to continue at their own pace
- Only ask questions for clarification and avoid asking any questions that may suggest a particular answer
- Reassure the child that they have done the right thing, let them know what you will do next and with whom the information will be shared
- Record the disclosure in writing using the child's own words as soon as possible, but not while the child is talking
- Includes the date and time, any names mentioned and to whom the information was given
- Sign and date the record, store it securely and refer the disclosure to the setting DSL and/or manager.

Recording a case of disclosure or suspicions of abuse in the community

If you observe a concern or receive a disclosure, make an objective record. Where possible include:

- Child's name and address
- Age of the child and date of birth
- Setting name and address
- Date and time of the observation or disclosure
- Details of the concern using factual information, including the exact words, body language, emotional state if relevant
- Accurate details of the observation, including actions of the child or adult involved
- Accurate details of an injury or wound seen, including position and size
- The names of any other person present at the time
- Name of the person completing the report
- Name of the person to whom the concern was shared, with date and time.

Discuss the record with the setting DSL or manager and follow the procedures. We expect all members of staff and stakeholders to co-operate with relevant agencies to ensure the safety of children.

Legal framework

Statutory guidance (must be followed)

All staff understand that safeguarding is everyone's responsibility and that anyone can make a referral to Children's Social Care if they believe a child is suffering or is likely to suffer significant harm. Staff should normally inform the DSL before making a referral unless doing so would place a child at increased risk or cause an unacceptable delay.

We adhere to all current legislation where relevant, as below:

Children and Social Work Act 2017
Criminal Justice and Court Services Act 2000
Female Genital Mutilation Act 2003 (as amended by the Serious Crime Act 2015)
Freedom of Information Act 2000
Keeping Children Safe in Education 2026
Safeguarding Vulnerable Groups Act 2006
The Childcare Act 2006/2016
The Children Act 2004
The Children Act (England and Wales) 1989
The Counter-Terrorism and Security Act 2015
The Data Protection Acts 1984, 1998 and 2018
The Domestic Abuse Act 2021
The Human Rights Act 1998
The Police Act 1997
The Sexual Offences Act 2003
Working together to safeguard children 2026
The Crime and Policing Act 2026

Relevant non-statutory guidance:

Child sexual exploitation, DfE 2017
 Information sharing, DfE 2015
 What to do if you're worried a child is being abused, DfE 2015

Ofsted Notification Timescales:

Ofsted will be notified of any allegation of harm or abuse by any person living, working or looking after children at the premises. This applies whether the alleged harm or abuse occurred on the premises or elsewhere, including during an outing or visit. Ofsted will also be informed of the action taken in response. Notification will be made as soon as reasonably practicable and, in all cases, within 14 days of the allegation being made.

This policy was adopted on	This policy was reviewed on:
----------------------------	------------------------------

25/01/2022	4th August 2026
------------	-----------------

* **Revisions made: 22/08/2022** - to update the Safeguarding Children in Education Act from 2020 to 2022 - effective from 1st September 2022.

* Update regarding designated safeguarding leads within the setting now include all room leaders 20/01/2023.

* Update to adjust working together to safeguard children now reflecting 2026.

* Update to include EYFS 2024 revisions. 13/02/2024

* Update to include - confirming references, lunchbox and food provisions policy 23/05/2025

* Revision 30th July 2025 - to include all policies and procedures which relate to this policy in line with Safeguarding updates coming into effect 1st September 2025.

* Revision 24th March 2026 - clearer wording for robust recruitment procedure included within this policy alongside our Safer Recruitment Policy. Reviewed to ensure consistent with 2026 legislation changes.

* Updated to reflect Keeping Children Safe in Education guidance and wider safeguarding updates. 4th May 2026.
